

What is the BPNG?

The British Pharmaceutical Nutrition Group (formerly the National TPN Group), founded in 1988, is an organisation with a professional interest in nutrition support. The members of this group are pharmacists, technicians and scientists from the health service, academia and industry.

Aims of the group:

- + To promote the role of pharmaceutical expertise and experience in the area of clinical nutrition.
- + To ensure the safe and effective preparation and administration of parenteral nutrition.
- + To promote education and research initiatives.
- + To encourage debate into pharmaceutical aspects of nutritional support.

The benefits of BPNG membership:

- + Networking with peers in the speciality.
- + Opportunity to compare ideas and exchange information with others.
- + Access to international leaders in the field.
- + Opportunities to meet suppliers/manufacturers in a non-commercial forum.
- + Links to other organisations - e.g. BAPEN/ESPEN.
- + Regular publications including newsletters and periodic policy documents.
- + A forum to present research/audit/case studies and ideas.
- + Regular educational meetings.
- + Informative web site.
- + E-mail news group.

How else do I benefit from joining BPNG?

Membership of the BPNG also includes affiliate membership of BAPEN. BAPEN was founded in 1991 as a result of the recommendations made by the King's fund report A Positive Approach to Nutrition as a Treatment. It aims to set standards of clinical practice in nutritional support and to educate and train everyone involved in the prevention of malnutrition during illness. As a member of one of BAPEN's core groups you will enjoy some of the benefits of BAPEN including:

- + Electronic BAPEN newsletters
- + Discounted full membership of BAPEN
- + Information about the annual general meeting

Cut along both sides of this form and send to: British Pharmaceutical Nutrition Group, St. Mark's Academic Institute, Level 5X, Watford Rd, Harrow, Middlesex, HA1 3UJ

Parenteral Nutrition - and the Liver -

The liver and how it deals with PN, and PN in liver disease

The BPNG Advanced Course

Friday/Saturday 15th & 16th October 2010
Wychwood Park, Crewe, Cheshire

www.bpng.co.uk
bpnginfo@googlemail.com

“Feeding Information
To Pharmacy”

Course Aims

- + To understand how the liver processes nutrients and PN components in particular.
- + To have insight into liver disease and how to optimise nutritional input in affected patients.
- + To be able to formulate appropriate PN regimens for liver patients.

Course Objectives

By the end of this advanced course participants will be able to:

- + discuss the function of the liver and its effects on PN admixtures.
- + comment on nutritional requirements in patients with liver disease.
- + assess the fluid status of patients and decide the appropriate fluid requirements to either dehydrate or re-hydrate your patient.
- + formulate appropriate PN admixtures for liver patients.
- + prevent further acid/base complications using nutritional support.

Guest Speakers

This years course will feature the following guest speakers:

Simon Gabe
Consultant
Gastroenterologist
NHS London St Marks

Sarah Knighton
Pharmacy Team Leader,
Liver Disease
NHS London Kings

Laura McGeeney
Liver transplant and
Hepatology Dietitian
NHS Cambridge

Christina Wong
Consultant Pharmacist
NHS Sheffield

Rebecca White
Lead Pharmacist,
Nutrition & Surgery
NHS Oxford

Lucy Thompson
Associate Director of
Pharmacy - Aseptic Services
King College Hospital

Programme - Day One Friday 15th October 2010

- 10.00 - 10.30 Arrival, Registration, Coffee & Exhibition
- 10.30 - 10.40 Welcome and Introduction
- 10.40 - 11.15 The Liver - Physiology & Function
Current thinking on how the liver does its job
- 11.15 - 11.45 Liver disease - Presentation and Treatment
Causes of liver dysfunction and current views on treatment
- 11.45 - 12.15 Refreshments & Exhibition
- 12.15 - 12.45 Nutritional Requirements in Liver Disease
How these are affected by disease progression & severity
- 12.45 - 13.15 BPNG AGM - A brief overview of activity
Accountable to our membership - brief officers reports and election of officer posts
- 13.15 - 14.15 Lunch & Exhibition
- 14.15 - 14.45 Workshop Session 1
Delegates may attend one from the following:
Group A - Interpreting Liver function Test Results (LFTs)
Group B - PN and the jaundiced patient - Case history
Group C - PN in hyperbilirubinaemia in the neonate
- 14.45 - 15.15 Workshop Session 2
Delegates may attend one from the following:
Group A - Interpreting Liver function Test Results (LFTs)
Group B - PN and the jaundiced patient - Case history
Group C - PN in hyperbilirubinaemia in the neonate
- 15.15 - 15.45 Refreshments & Exhibition
- 15.45 - 16.15 The Consultant Pharmacist in PN
Current developments in legislation and roles
- 16.15 - 16.45 NCEPOD - The results
What does the report really say
- 16.45 - 17.15 NCEPOD - The real life story of PN
What's happening and how do we ensure best practice
- 17.15 Summation & Close of Day 1

Programme - Day Two Saturday 16th October 2010

- 09.00 - 09.10 Good Morning and introduction to Day Two
- 09.10 - 09.45 Formulating a clinical management plan and producing a prescription
- 09.45 - 10.15 Preventing long-term PNALD
PN effected Adult Liver Disease
- 10.15 - 10.45 Case History - PNALD
- 10.45 - 11.15 Refreshments & Exhibition
- 11.15 - 11.45 Neonatal Liver Abnormalities
Causes, prevention, treatment and PN modification for
- 11.45 - 12.15 Case History - PNALD neonatal case
- 12.15 - 12.45 Lipids and the Liver
The good, the bad and the ugly
- 12.45 - 13.00 Summation & Close of Day Two
- 13.00 - 14.00 Lunch & Departures

Diary Dates

- + **5th - 8th September 2010**
ESPEN
Nice, France
- + **2nd - 3rd November 2010**
BAPEN Congress
Harrogate
