

Reviewing Patients on Parenteral Support: What All Pharmacy Professionals Need to Know

This webinar will strengthen your knowledge and confidence in reviewing patients receiving parenteral support (parenteral nutrition and IV fluids). Learn how to assess key clinical and nutritional factors, identify potential risks, carry out structured medicines reviews, and support safe, effective patient care on the ward.

- Talk One: Parenteral Support in Practice, What the Ward Pharmacy Team Needs to Know
 - Exploring clinical and nutritional considerations
- Talk Two: Reviewing Medicines in Patients on Parenteral Support
 - Exploring drug chart review and safe prescribing considerations

2nd June 2026
